1- Distributors who purchase the NEW RVP Pak agree to pay the maintenance contract of \$29.99/month a minimum of 24 months, and renewable every 12 months thereafter. This must be paid via a Visa/Mastercard credit/debit card, American Express, Discover card, or any US or Japanese checking account.

2- If the vending machine becomes inoperative due to regular wear and tear, all the distributor needs to do is to ship the Machine to the office (USA distributors to Yorba Linda office, and distributors from other countries to our respective offices in the country) and the office will ship a replacement machine (new or refurbished) at no cost.

However, if the Machine was found to be abused or tampered with, the distributor will be billed for parts and labor. The distributor pays for shipping and handling.
